#### **DAY 1 — The #1 Mistake New Entrepreneurs Make (BluWavs)**

**Hook:**

The #1 mistake I see new entrepreneurs make?

**Body:**

They start selling before they're legally protected.

No LLC.

No Operating Agreement.

No contracts.

No financial tracking.

Then something goes wrong — and they realize they built a house on sand.

Your business isn't real until it's protected.

Here's what you actually need before your first sale:

- Business formation (LLC or Corp)
- Operating Agreement
- Professional contracts
- Invoice system
- Profit & Loss tracking

Don't skip the foundation.

## DAY 2 — 3 Tasks You Should Automate Immediately (AiSurfin)

### Hook:

You're wasting 10+ hours a week doing these manually.

### Body:

If you're still:

- ✉️ Sending onboarding emails one by one
- 📅 Manually scheduling every appointment
- 📝 Following up with leads by memory

...you're burning time you'll never get back.

Here's what to automate TODAY:

**1 Client Onboarding** — New client signs up → automatic welcome email + intake form + calendar link

**2 Appointment Scheduling** — Let clients book directly into your calendar. No back-and-forth.

**3 Lead Follow-Up** — Someone fills out your form → automatic email sequence starts

This isn't "nice to have." It's how real businesses scale.

## DAY 3 — Template Preview: Business Plan (BluWavs)

### Hook:

This is what a lender-ready business plan looks like.

### Body:

[Screenshot/Video of Business Plan Template]

Most business plans I see?

- ✗ Too vague
- ✗ Missing financials
- ✗ No market analysis
- ✗ Looks unprofessional

Lenders see hundreds of these. They can spot amateur work in 10 seconds.

Our Business Plan Template includes:

- Executive Summary
- Company Description

- Market Analysis
- Financial Projections (5 years)
- Funding Request section
- Professional formatting

This is the same structure used by businesses that actually get funded.

**DAY 4 — Automation Demo: Onboarding Workflow (AiSurfin)**

**Hook:**

Watch this onboarding workflow run completely by itself.

**Body:**

[Video/GIF of automation running]

Here's what happens when a new client signs up:

- 1 They fill out one form
- 2 Welcome email sends automatically
- 3 Intake questionnaire delivered
- 4 Calendar link for first call
- 5 Added to your CRM
- 6 Reminder sent 24 hours before call

Total time spent by you? **Zero.**

This is what your business looks like when systems work FOR you.

No more:

- Forgetting to send welcome emails
- Chasing down intake forms
- Double-booking yourself
- Losing leads in your inbox

## DAY 5 — Before/After: Messy → Organized Business (BluWavs)

### Hook:

Left side: What most small businesses look like.

Right side: What yours could look like.

### Body:

#### BEFORE:

-  Documents scattered everywhere
-  Contracts written on napkins
-  No idea if you're profitable
-  "I'll figure out the financials later"
-  Constantly stressed

#### AFTER:

-  Every document in one place
-  Professional contracts ready to send
-  P&L statement updated monthly
-  Know your numbers instantly
-  Actually confident in your business

The difference isn't luck.

It's having the right templates and systems.

## DAY 6 — Client Testimonial (BluWavs)

### Hook:

"I went from overwhelmed to organized in one weekend."

### Body:

Here's what Sarah, a new coaching business owner, said after using BluWavs templates:

 "I'd been putting off the 'business stuff' for months. Contracts felt scary. Financials felt complicated. I kept telling myself I'd figure it out later."

Then I found BluWavs. I downloaded the Business Starter Pack on a Friday night, and by Sunday I had:

- My LLC Operating Agreement done
- A real business plan
- Client contracts ready to send
- A P&L spreadsheet I actually understand

For the first time, I feel like a REAL business owner."

**DAY 7 — Offer Reminder: Browse Templates / Book a Call (Both Brands)**

**Hook:**

Still running your business the hard way?

**Body:**

If you're:

-  Creating documents from scratch every time
-  Guessing at your financials
-  Doing tasks manually that could be automated
-  Losing leads because you forgot to follow up

...it's time to work smarter.

**Two ways we can help:**

### DAY 8 — 5 Documents Every Business Needs (BluWavs)

**Hook:**

If you don't have these 5 documents, you don't have a real business.

**Body:**

Harsh? Maybe.

True? Absolutely.

Here's what lenders, investors, and serious clients expect:

#### **1 Operating Agreement**

Even if you're a single-member LLC. This protects your personal assets.

#### **2 Business Plan**

Not a 50-page novel. A clear, professional roadmap.

#### **3 Profit & Loss Statement**

Know if you're actually making money. Update monthly.

#### **4 Cash Flow Forecast**

Predict when money comes in and goes out. Avoid surprises.

#### **5 Client Contracts**

Protect yourself. Get paid. Set expectations.

Missing even ONE of these?

You're leaving money, credibility, and legal protection on the table.

## DAY 9 — Automation Myth vs Fact (AiSurfin)

### Hook:

“Automation is too expensive for small businesses.”

### Body:

That's the #1 myth I hear.

Let me break it down:

**✗ MYTH:** Automation is only for big companies with big budgets.

**✓ FACT:** Most small business automations cost less than \$50/month — and save 10+ hours a week.

**✗ MYTH:** It's too complicated to set up.

**✓ FACT:** Basic automations take 30 minutes to build. (We can do it in a single call.)

**✗ MYTH:** My business is too small to need automation.

**✓ FACT:** Small businesses benefit MOST. You don't have a team — automation IS your team.

**✗ MYTH:** Automation feels impersonal.

**✓ FACT:** Good automation is invisible. Clients just think you're really organized.

Stop believing the myths.

Start building the systems.

## DAY 10 — Template Preview: Operating Agreement (BluWavs)

### Hook:

You have an LLC. But do you have THIS?

### Body:

[Screenshot/Video of Operating Agreement Template]

An Operating Agreement isn't optional — even for single-member LLCs.

Without it:

- ✗ Your LLC protection could be challenged in court
- ✗ Banks may refuse to open a business account
- ✗ Partners have no clear ownership terms
- ✗ Exit strategy? Doesn't exist.

Our Operating Agreement Template includes:

- ✓ Ownership percentages
- ✓ Voting rights
- ✓ Profit distribution
- ✓ Management structure
- ✓ Dissolution procedures
- ✓ Legal language that holds up

Professional. Customizable. Done in 30 minutes.

## DAY 11 — Workflow Diagram: Lead → CRM → Email (AiSurfin)

**Hook:**

This is what happens to your leads when you have systems.

**Body:**

[Workflow diagram graphic]

**WITHOUT automation:**

Lead fills out form → You forget to check → 3 days pass → They hired someone else

**WITH automation:**

- 1 Lead fills out form
- ↓
- 2 Automatically added to CRM
- ↓
- 3 Welcome email sends (instantly)
- ↓
- 4 Email sequence begins
- ↓
- 5 Calendar link delivered

## DAY 12 — Founder Story (BluWavs)

**Hook:**

I started BluWavs because I was tired of watching good businesses fail for preventable reasons.

**Body:**

The problem was never the idea.

The problem was never the hustle.

It was the foundation.

I watched talented entrepreneurs:

- Get sued because they had no contracts
- Lose funding because their financials looked amateur
- Close their doors because they never knew their numbers

They didn't fail because they weren't smart.

They failed because no one gave them the right tools.

That's why BluWavs exists.

Professional templates.

Real documents.

Built for entrepreneurs who are serious about building something real.

Because your dream deserves a foundation that won't crumble.

## **DAY 13 — FAQ: “Do I Need an LLC First?” (BluWavs)**

### **Hook:**

“Should I form my LLC before buying templates?”

I get this question a lot.

### **Body:**

Here's my honest answer:

**It depends on where you are.**

### **If you're still validating your idea:**

You don't need an LLC yet. But you DO need:

- A business plan to clarify your vision
- Financial projections to know your numbers
- Basic contracts for early clients

### **If you're making money (or about to):**

Yes. Get the LLC. And get these immediately:

- Operating Agreement (required for most banks)
- Client contracts
- Invoice system
- P&L tracking

### **If you're applying for funding:**

You need everything above PLUS:

- Lender-ready business plan
- Cash flow forecasts
- Professional presentation

The templates work at any stage.

The sooner you have them, the better protected you are.

## DAY 14 — CTA: Download Your Free Checklist (BluWavs)

### Hook:

Want to know if your business foundation is solid?

### Body:

I made a free checklist.

- Legal Formation
- Financial Setup
- Branding Basics
- Website Essentials
- Compliance Requirements
- Tools You Actually Need

If you can't check off every box, you've got gaps.

Gaps = risk.

Gaps = lost opportunities.

Gaps = stress.

The checklist takes 5 minutes.

The peace of mind? Priceless.

## DAY 15 — Startup Budget Breakdown (BluWavs)

### Hook:

Thinking about starting a business? Here's what it ACTUALLY costs.

### Body:

Forget the "you need \$50K to start" myth.

Here's a real startup budget breakdown:

### ONE-TIME COSTS:

-  LLC Formation: \$50-500 (varies by state)
-  Operating Agreement: \$0-200 (or use a template)
-  Business Plan: \$0-500 (template vs. consultant)

 Website: \$0-500 (DIY vs. designer)

 Logo/Branding: \$0-300

#### **MONTHLY COSTS:**

 Domain: \$1-2/month

 Email Marketing: \$0-50/month

 Accounting Software: \$0-30/month

 Scheduling Tool: \$0-15/month

**TOTAL TO LAUNCH:** \$100-1,500

The expensive part isn't the money.

It's the time wasted creating everything from scratch.

Or... you can use templates.

## **DAY 16 — Automation That Saves 10 Hours a Week (AiSurfin)**

#### **Hook:**

What would you do with 10 extra hours every week?

#### **Body:**

Here's where most small business owners lose time:

-  **3 hours** — Manual email follow-ups
-  **2 hours** — Scheduling back-and-forth
-  **2 hours** — Data entry and CRM updates
-  **2 hours** — Client onboarding tasks
-  **1 hour** — Sending invoices and reminders

**Total: 10+ hours/week on tasks that could run automatically.**

Here's what that looks like automated:

- Leads get instant follow-up emails
- Clients book directly into your calendar
- Forms auto-populate your CRM
- Onboarding sequences run themselves
- Invoices send on schedule

10 hours back. Every. Single. Week.

That's 40 hours a month.

That's 500 hours a year.

What could you build with 500 extra hours?

**DAY 17 — Template Preview: P&L Statement (BluWavs)**

**Hook:**

If you can't tell me your profit margin right now, we need to talk.

**Body:**

[Screenshot/Video of P&L Template]

A Profit & Loss Statement isn't just for accountants.

It's how you know:

- If you're actually making money
- Where your money is going
- What you can afford to invest
- If your pricing is right

Our P&L Template makes this easy:

- Pre-built categories
- Automatic calculations
- Monthly tracking
- Annual summary
- Clean, professional format

Update it monthly. Know your numbers. Make better decisions.

## DAY 18 — Chatbot Demo (AiSurfin)

### Hook:

Your website could be converting leads at 3am.

### Body:

[Video/GIF of chatbot in action]

Most websites just... sit there.

Visitors come.

They look around.

They leave.

But what if your website could:

- 💬 Answer FAQs instantly
- 💬 Qualify leads automatically
- 💬 Book calls while you sleep
- 💬 Collect contact info 24/7

That's what a simple chatbot does.

No, it's not creepy.

No, it doesn't have to feel robotic.

Yes, it actually works.

One client added a chatbot and increased lead capture by 40%.

Same traffic. More leads. Zero extra work.

## DAY 19 — Problem → Solution Post (BluWavs)

### Hook:

You're not disorganized.

Your systems are.

### Body:

#### THE PROBLEM:

You know you need:

- Contracts
- Financial tracking

- A real business plan
- Professional documents

But every time you sit down to create them:

- You don't know where to start
- You spend hours on formatting
- You're not sure if it's "right"
- You give up and say "I'll do it later"

### **THE SOLUTION:**

Start with templates.

- ✓ Professional structure already done
- ✓ Just fill in your details
- ✓ Looks polished and credible
- ✓ Actually gets completed

## **DAY 20 — Client Win (AiSurfin)**

### **Hook:**

"I used to spend 3 hours a day on admin. Now it's 20 minutes."

### **Body:**

Meet Marcus.

He runs a consulting business.

Great at what he does.

Terrible at keeping up with the admin.

### **Before automation:**

- ✗ Manually sending every email
- ✗ Forgetting to follow up with leads
- ✗ Double-booking appointments
- ✗ Spending evenings on paperwork

### **After one strategy call:**

- ✓ Automated email sequences
- ✓ Self-booking calendar

- CRM that updates itself
- Client onboarding on autopilot

#### **The result?**

### DAY 22 — How to Prepare for Funding (BluWavs)

#### Hook:

Want to get funded? Here's what lenders actually look for.

#### Body:

I've talked to loan officers, investors, and SBA reps.

They all say the same thing:

"We can tell in 30 seconds if someone is serious."

Here's what makes them say YES:

#### 1 Professional Business Plan

Not a brain dump. A clear, structured document with financials.

#### 2 Financial Projections

At least 3 years. Show you've done the math.

#### 3 Cash Flow Forecast

Prove you understand when money comes in and goes out.

#### 4 Personal Financial Statement

Yes, they look at YOUR finances too.

#### 5 Legal Documentation

LLC papers, Operating Agreement, EIN.

#### 6 Clean Presentation

Looks professional = looks trustworthy.

### DAY 23 — What Your Business Looks Like Automated (AiSurfin)

#### Hook:

This is what your business looks like when it runs without you.

**Body:****MORNING:**

- ☀ You wake up to 3 new leads (captured overnight)
- ☀ Their info is already in your CRM
- ☀ Welcome emails were sent automatically
- ☀ One already booked a call

**AFTERNOON:**

- ☀ Client call (auto-reminded)
- ☀ Follow-up email sends itself after
- ☀ Invoice delivered automatically
- ☀ Next appointment scheduled

**EVENING:**

- ☀ You close your laptop
- ☀ Systems keep running
- ☀ Leads keep coming
- ☀ You actually rest

## DAY 24 — Template Preview: Cash Flow Forecast (BluWavs)

**Hook:**

Profit doesn't mean cash in the bank.

**Body:**

[Screenshot/Video of Cash Flow Template]

This is the document that saves businesses from "profitable bankruptcy."

Yes, that's a real thing.

You can be profitable on paper and still run out of cash if:

- Clients pay late
- Expenses hit before revenue
- You don't plan for slow seasons

A Cash Flow Forecast shows:

- When money actually arrives
- When bills are actually due

- If you'll have gaps
- How to plan ahead

Our template includes:

- 12-month projection
- Income categories
- Expense categories
- Running balance calculation
- Visual cash flow chart

## DAY 25 — Automation Tools I Use (AiSurfin)

**Hook:**

People ask what automation tools I recommend. Here's my honest answer.

**Body:**

**For Email Automation:**

-  ConvertKit (creators)
-  ActiveCampaign (advanced)
-  Mailerlite (budget-friendly)

**For Scheduling:**

-  Calendly (simple)
-  Acuity (more features)
-  Cal.com (free option)

**For CRM:**

-  HubSpot (free tier is solid)
-  Pipedrive (sales-focused)
-  Notion (DIY)

**For Workflow Automation:**

-  Zapier (most popular)
-  Make (more powerful)
-  n8n (self-hosted)

**For All-in-One:**

-  Go High Level
-  Dubsado
-  Honeybook

**The truth?**

The best tool is the one you'll actually use.

## DAY 26 — Business Myth (BluWavs)

**Hook:**

“You don’t need fancy documents to start a business.”

**Body:**

I hear this all the time.

And technically? It’s true.

You CAN start without:

- Operating Agreement
- Business Plan
- Contracts
- Financial tracking

You can also drive without a seatbelt.

Doesn’t mean you should.

Here’s what happens without documents:

-  Banks won’t open business accounts
-  Investors won’t take you seriously
-  Clients can walk away without paying
-  Partners can dispute ownership
-  The IRS has questions

“Fancy” documents aren’t fancy.

They’re foundational.

You don’t need them to START.

You need them to SURVIVE.

## DAY 27 — Automation Myth (AiSurfin)

### Hook:

“Automation makes your business feel impersonal.”

### Body:

This is the biggest lie in business.

Let me tell you what’s ACTUALLY impersonal:

- ✗ Forgetting to follow up with a lead
- ✗ Sending the same email 3 days late
- ✗ Being too busy to respond at all
- ✗ Dropping the ball on client communication

That’s impersonal.

Automation done RIGHT:

- ✓ Responds instantly (“Wow, they’re so fast!”)
- ✓ Remembers every detail (“They really care!”)
- ✓ Never forgets to follow up (“So professional!”)
- ✓ Delivers consistent experience (“I feel valued!”)

Good automation doesn’t replace the human touch.

It gives you TIME for the human touch.

**Hook:**

How one coach went from burned out to booked out — with automation.

**Body:**

**THE CHALLENGE:**

Jenna runs a wellness coaching business.

Her problem? Success was killing her.

- 40+ emails a day
- Hours spent on scheduling
- Leads falling through cracks
- No time for actual coaching

**THE SOLUTION:**

We built her a simple automation system:

- 1** Website chatbot qualifies leads
- 2** Calendar books itself
- 3** Onboarding emails send automatically

- 4 Follow-ups happen without her
- 5 CRM tracks everything

#### **THE RESULTS (30 days later):**

-  35% more leads captured
-  15 hours/week saved
-  Revenue up 20%
-  Actually takes weekends off

## 🎯 Platform-Specific Tips

### Instagram/Facebook:

- Use the full post as caption
- Add relevant image or carousel
- First line = hook (grab attention)
- Use 20-30 hashtags on Instagram
- Use 3-5 hashtags on Facebook

### LinkedIn:

- Remove hashtags (use 3-5 max)
- More professional tone
- Add line breaks for readability
- Engage in comments

### TikTok/Reels:

- Use the hook as your opening line (speak it)
- Body = your talking points
- Show visuals (templates, workflows)
- End with CTA on screen

### Pinterest:

- Use hook as pin title
- Create graphic with key points
- Link directly to product/page
- Use keyword-rich description

### Twitter/X:

- Condense to hook + 1-2 key points + CTA
- Thread longer posts

- Use 1-3 hashtags max

## Ready to Go!

You now have **30 days of professional, conversion-focused content** ready to copy, paste, and post.

### **Next steps:**

1. Schedule posts in your favorite tool (Later, Planoly, Buffer, etc.)
2. Create visuals for each post (screenshots, graphics, videos)
3. Post consistently — same time every day
4. Engage with comments
5. Track what performs best
6. Repeat!
